

Fight for a New World

(Paroles: Alain Bruyère, Bernard Lalande - Musique: Quartier Nord)

We need to imagine new ways of life
We need to build futures always more nice
Come on roll-up our sleeves
No longer w'll be the slaves of our fears
Let's dream to new ways of being
Let's meet the challenges we're facing

We 're gonna fight for a new world
We 'll hopefully win this battle
Let 's go together for a new start
Let's give a new hope to the earth

Fight for a New World, New World, fight for a New World, a New World
Fight for a New World, New World, fight for a New World, a New World

Do not be afraid, the future is near
Raise high your head, our road is clear
Do not be afraid, the future is near
Raise high your head, our road is clear

Fight for a New World, New World, Fight for a New World, a New World
Fight for a New World, New World, Fight for a New World, a New World

Pave the road for changes, no need for words
And share true happiness, life is so short
For this important choice
Let's listen to our inner voice
Close the door on yesterday
Let's prepare the advent of a new day

We 're gonna fight for a new world
We 'll hopefully win this battle
Let 's go together for a new start
Let's give a new hope to the earth

Fight for a New World, New World, Fight for a New World, a New World
Fight for a New World, New World, Fight for a New World, a New World

Do not be afraid, the future is near
Raise high your head, our road is clear
Do not be afraid, the future is near
Raise high your head, our road is clear

Fight for a New World, New World, Fight for a New World, a New World
Fight for a New World, New World, Fight for a New World, a New World
